

Checkers is excited to offer our new AlturnaMATS®!

PROTECT YOUR FAIRWAYS AND ROUGHS FROM COSTLY VEHICLE DAMAGE!

ALTURNAMATS® FEATURES:

DURABLE

- Made of 100% recycled polyethylene plastic
- Super tough, weather-proof mat is 1/2" thick
- Flexible enough to conform to ground contour
- Strong enough to support tons of equipment
- Long lasting – virtually indestructible – UV resistant
- Field tested in the record-breaking cold and heat

CONVENIENT

- Portable – hauls easily in a pick-up truck
- Maintenance free – hose off with plain water
- Handi-hook available for moving mats around site
- Easy- to handle – holes for rope handles or hook

ECONOMICAL

- Competitively priced
- 100% reusable, 100% recyclable
- A low-cost alternative to fiberglass reinforced mats
- More cost effective than plywood

GUARANTEED

- AlturnaMATS feature a Limited Lifetime Warranty from cracking and breaking.

Create new bunkers or revamp existing ones without expensive restoration.

ASK JOHN ZIMMERS,

Superintendent, Oakmont Country Club
Oakmont, Pennsylvania

"We've got 20, 4'x8' mats and we use them all over the course... for trenching, bunkers, tees, tree work, anywhere the course can be damaged by our vehicles. Some of our mats are smooth on one side with clears on the underside for traction so our trenching crews can easily shovel dirt off the smooth surface. The mats are flexible but don't break like plywood – and they don't warp or splinter, plus, we can use them for years. We just hose them down so they're clean for the next day. It's been a good investment for Oakmont."

ALTURNAMATS® ADVANTAGES:

AlturnaMATS® are the original black ground protection mats. They're used in a broad variety of applications such as golf courses, landscaping, tree care, well drilling, cemeteries, utilities... virtually any industry where saving sod restoration costs is a factor. And they are great where heavy vehicles get stuck in mud. AlturnaMATS® are double-sided deck plates available in smooth one side or both.

These rugged mats are made of 1/2" thick polyethylene so they are virtually indestructible. They withstand loads up to 120 ton, bend but don't break and feature a Limited Lifetime Warranty. The mats have been field tested in record cold and intense heat.

Mats are easily locked together by linking the holes located at the ends of each mat. Once locked, your individual mats become a continuous roadway that remains firmly in place. Protect your fairways and conserve your maintenance budget. AlturnaMATS® usually pay for themselves in the first year.

Trenching becomes much easier when AlturnaMATS® "roadway" straddles the trench. There's no damage to fairways.

Dedicated to saving lives and protecting assets.

ALTURNAMATS® GROUND PROTECTION MATS

The optional mat with one smooth side facilitates shoveling dirt to or from the trench. Simply tip the mat on its side and all dirt returns to the trench.

Tee boxes can be landscaped without damage to the rest of the course. AlturnaMATS® form a solid platform for your equipment to operate.

AlturnaMATS® load onto utility truck bed or trailer for convenient transport to and from the construction site.

New Turn-a-Link's double link lock AlturnaMATS® into one large working platform mounted firmly in place.

... or Turn-a-Link's single link creates a continuous "roadway" ideal for trenching and other uses where saving fairways is vital.

ALL TYPES OF VEHICLES AND EQUIPMENT PASS EASILY OVER LAWNS, THROUGH MUD AND ACROSS TERRAIN WHEN ALTURNAMATS® ARE USED.

SIZES TO SUIT YOUR NEEDS

SIZE	ITEM NUMBER	APPROX. SHIP WEIGHT
4' x 8' (1.22 x 2.44m)	AM48	86.00 lb. (39.00 kg.)
3' x 8' (0.91 x 2.44m)	VM38	64.00 lb. (29.25 kg.)
2' x 8' (0.61 x 2.44m)	VM28	43.00 lb. (19.50 kg.)
Handi Hook	AMHH	2.50 lb. (1.13 kg.)
Turn-a-Link (Single)	FTL-S-G	8 oz. (227 gr.)
Turn-a-Link (Double)	FTL-D-G	20 oz. (567 gr.)

NO MORE PLYWOOD!

Plywood often breaks during the first use. It splinters, warps, gets water logged and is awkward to handle. Plywood often lasts less than one year. AlturnaMATS® eliminates all the aforementioned.
