

PERMALIGHT® foamy bumpers come in many different shapes for a multitude of uses. They are made from recyclable polyurethane foam and help prevent employee injuries and protect machinery, equipment, cars and more. Installation is easy!

Black-yellow: Outdoor and Indoor use. Available in all types. Yellow foam.

Photoluminescent/red: Indoor use only! Soft yellowish during the day lights up with a yellow glow in the dark. Black foam.

Photoluminescent/black: Indoor use only! Soft yellowish during the day lights up with a yellow glow in the dark. Black foam.

Fluorescent + Photoluminescent/black: Indoor use only! Very bright alerting daylight fluorescence combined with a darkness photoluminescent glow/contrasting black. *power* 140 luminance. Black foam.

White: White foam with white surface is ideal in hospitals, doctor's offices, laboratories and other areas where the bumper shall blend in.

Reflective: Outdoor and Indoor use. Black foam. Silver/Red surface bounces back light (e.g., car headlights, flashlights).
