BACK PAINTED GLASS MARKER BOARD INSTALLATION INSTRUCTIONS

ELEVATION

SECTION

* Shown with one of the mounting options

NOTE: Not all application have Magnetic add-on and/or wall brackets

INSTRUCTIONS

1. Always anchor the wall mounted brackets into the structural framing (metal or stud)
2. The wall mounted brackets must be installed level and parallel to each other
3. If the wall surface is not level and flat then a shim may be required between wall brackets and wall surface.
4. Make sure glass brackets fully engage to wall brackets.
5. Handle board with extra care during installation.
