

## FLOOD BAGS & BARRIERS

### Absorb, Contain & Divert Water

Quick Dam Flood Bags & Barriers contain a super absorbent powder that activates & swells when wet & then acts as a barrier to control & divert problem water

- 💧 Ready to use, activates with water
- 💧 Compact, lightweight & portable
- 💧 No sand or labor needed
- 💧 Reusable & lasts for months
- 💧 Reactivates when wet & evaporates when dry
- 💧 Degrades naturally after several months of ongoing use
- 💧 Flood protection up to 3.5in high & then stackable
