

Metal Moldings

Our complete line of Moldings MX™ are more durable and rugged than traditional vinyl and wood products. Use for wall protection and appearance. All Moldings feature heavy duty all metal construction. Pre-formed inside and outside corners eliminate miter cuts making installation easy.

Available in 4 ft , 8 ft and 10 ft lengths as well as custom sizes. Check out all of the stunning metals and anodized colors. Use for factories, offices, restaurants, commercial spaces, and more. Looks great, works even better™.

Advantages

- **All Metal Construction**
Heavy Duty Protection
- **More Durable and Rugged**
than traditional plastic protectors
- **Pre-Formed Corners**
Pre-Formed Inside Corners and Outside Corners available eliminating complex miter cutting.
- **Easy to Cut**
cuts and drills like traditional trim. Use cutting blade designed for sheet metal.
- **Easy to Clean**
just wipe off
- **Chemical Resistant**
resistant to oil, grease, petroleum products and most household chemicals
- **Use for Protection and Appearance**
protects walls and looks great
- **For Commercial and Residential Use**
factories, workshops, retail spaces, restaurants, architectural spaces, and more
